Summary

With over 3 years of experience in UI/UX design, specializing in Figma, I excel in creating intuitive and visually appealing interfaces. I have a strong background in WordPress development, including custom theme development and cPanel management. My experience also includes leading teams to deliver high-quality digital solutions. Additionally, I possess a foundational understanding of MERN development, enabling a versatile approach to full-stack development.

Work Experience

HIC Global Solutions, Noida

● Sr. UI Developer

May 2023 - Till Now

HIC GLOBAL SOLUTIONS
Your CRM Success Partners

Roles & Responsibilities

- Spearheaded large-scale data migration projects, successfully transferring over 10 million records from CSV files to databases using MySQL Workbench.
- Engineered custom WordPress themes from the ground up, achieving a 30% improvement in load times and user experience.
- Orchestrated and led design and development teams, delivering projects 20% faster through optimized workflows.
- Integrated dynamic content, seamlessly connecting front-end elements with back-end databases to enhance user interaction.
- Designed intuitive UI/UX workflows in Figma, reducing design iteration times by 15%.
- Collaborated closely with designers and backend developers to deliver seamless, functional web solutions.
- Managed and maintained over 10 business websites, ensuring 99.9% uptime and top-tier performance.
- Deployed websites to live servers with cPanel, overseeing all aspects of server management and security.
- Conducted comprehensive website performance tests, resulting in a 20% reduction in loading times and the elimination of critical bugs.

● Jr. UI Developer

July 2021 - May 2023

Roles & Responsibilities

- Developed responsive websites by transforming PSD designs into HTML/CSS, increasing client satisfaction by 25%.
- Continued to refine skills in responsive web development, consistently delivering projects ahead of schedule.
- Customized WordPress themes to align with client-specific requirements, enhancing site usability and engagement.
